Sir,

In submitting herewith an extract from the proceedings of the Municipal Board Kolar Town, held on the 24th June 1902 I have the honor to request that you will be so good as to obtain the sanction of Government to the above resolution.

The present pipe line runs straight down through the Main Bazaar and the Brahmin quarter into the Fort.

The extension now proposed is to carry a pipe line, at right angles to the above, to the Government Hospital Assistant Surgeon's

and deputy Commissioner's Quarters, the line ending opposite the Hospital.

A stand pipe at this point would supply all the Government buildings aforesaid, and would be used by the whole of the Barr Lepoyo (whose quarters are only 200 yards away) and that part of the town known as Bestaspet and Galpet, viz about 5 or 600 houses.

This part of the town is exceedingly badly off for a good wholesome water supply, as all the existing wells hold nothing but the most brackish water.

I would very strongly urge upon Government the absolute necessity for this extra pipe line and also one to the Cummarapet gate down S. parkes road. Both these lines could be carried through for about Rs 2500/- or Rs 3000/- and would complete the water supply to a very large portion of the Town.

I have the honor to be
Sir
Your most obedient servant

J C Cameron
President.

" Proposed by the President and seconded by Mr. Gopal Row that as the Medical department decline to help the Municipality and the Municipality is unable to bear the extra cost this year the amount required viz Rs 1200/- for extending the pipe line to the Civil Hospital, Kolar may be added on to the original loan with the sanction of Government.

Mun C Board appl+ for a loan of Rs 1,200/- for extending the pipe line to the Civil Hospital but the President in supporting the Board's resolution applies for a loan of Rs 2500 or Rs 3,000/- to take the pipe line to Annavarapet^ also. Further the Presidents' present communication, plainly makes it appear ~~Stand~~ that the pipe-line has been taken only as far as the post and it has hereafter to be taken as far to the Civil Hospital, ~~and~~ conflicts with the facts stated^ in his letter of the 7th June (818) 1902 and in the Sup^g Engrs letter No 1089/504 of the 28th May 1902 to his address. Under ~~These~~ circumstances the President is requested to state clearly
